## SEAT GENUINE WINDSCREEN CLEAR

Perfect visibility

TECHNOLOGY TO ENJOY

## DID YOU KNOW?

If the windscreen is dirty, danger might become visible too late, or, even worse, not be seen at all.

The windscreen clear, together with the windscreen wipers, gets rid of dirt on the windscreen.

Without the cleaning product, the windscreen wiper blades would only spread the dirt all over. This would result in even more limited vision.

If the windscreen clear does not have enough anti-freezing effect, it might freeze inside the flexible tubes, the nozzles or even just on the glass surface. If it freezes on the windscreen, it will make visibility even worse because of freezing and dirt.

The washing liquid should not damage the paint, the windscreen wiper blade rubber lip, or any other material that might come in contact with it. The headlight boxes are particularly exposed to cracks from tension.

When the windscreen washer liquid runs out it should be replaced immediately.

## SEAT GENUINE WINDSCREEN CLEAR

Its cleaning power is extraordinary and it can even get rid of wax and oily texture remains.

It is highly compatible with all the materials used in the SEAT cars. It is low viscosity, which makes it ideal for the 'fan' type nozzles used by SEAT.

It reduces the danger of lime sediments that might obstruct the 'fan' nozzles or the flexible tubes.

It is environment friendly as it does not include non-ionic tens active products.

## ADVANTAGES

- / High cleaning power.
- / Excellent compatibility with materials.
- / Adequate for 'fan' nozzles.
- / It reduces the danger of lime sediments.
- / Pleasant smell.

## SEAT GENUINE PARTS

- / The same quality as the parts used in manufacturing the vehicle.
- / They contribute to all the vehicle parts adapting perfectly with each other, therefore rendering utmost safety, reliability and performance.
