NOTES

USB CONSOLE

- / Only external storage media or USB mass storage media (Mass Storage Device) 2.0 compliant USB specification.
- / Do not use adapters for memory cards, their use may cause errors during operation.
- / The partition of an external data medium must conform to the FAT16 file system (<2 GB) or FAT32 (> 2 GB) (FAT: File Allocation Table).
- / To manage external storage device, see the manufacturer's instruction manual.
- / Some multimedia devices may take longer to load due to multiple files, folders and subfolders or due to non-reproducible content. The playback start time is influenced by the connected device. If it exceeds a certain time during the initialization process (read content) it may be necessary to select the audio source via MEDIA menu to play the device.
- / Medium / high volume level of the external device is recommended for clear sound via the MEDIA IN (CUP / USB Port).
- / Find information on audio formats and playlists for your MEDIA IN (CUP / USB port) in the user manual.
- / The folder structure on the external storage medium should not exceed a depth of eight levels of folders. A folder should contain no more than 1,000 files.
- IPOD CONSOLE**
- / Find information on audio formats and playlists for your MEDIA IN (CUP / USB port) in the user manual.
- / MEDIA IN (CUP / USB Port) offers a standard USB voltage of 5 volts. The maximum intensity is limited to 1000 mA.
- / The use of USB extension cables and USB Hub (USB hub) can cause malfunctions.
- SD CARD SLOT**
- / Consult user manual for usage information, media and audio formats for your SEAT Media System 2.1 browser.
- / If an external storage medium is divided into multiple partitions, only the first partition with compatible audio files will be played.
